

SUBJECT MATTER OF GOLDEN's PATENTS:

[7,385,497]; [7,636,033]; [8,106,752]; [8,334,761]; [8,531,280];

[RE43,891]; [RE43,990]; [9,096,189] &

Patent Application No.: 14/806,988

1. Multi-sensor detection system / CBRNE-H detection
2. Multi-sensor detection device / CBRNE-H detection
3. Multi-sensor detection system / maritime cargo container
4. Multi-sensor detection device / maritime cargo container
5. Multi-sensor detection system / unmanned aerial vehicle (UAV)
6. Multi-sensor detection system / unmanned aerial system (UAS)
7. Multi-sensor detection system / unmanned ground vehicle (UGV)
8. Multi-sensor detection system / unmanned ground system (UGS)
9. Multi-sensor detection system / unmanned sea vehicle (USV)
10. Multi-sensor detection system / unmanned sea system (USS)
11. Multi-sensor detection system / mobile communication device
12. Multi-sensor detection system / portable communication device
13. Multi-sensor detection system / fixed communication device
14. Multi-sensor detection system / cell phone
15. Multi-sensor detection system / smartphone

16. Multi-sensor detection system / PDA
17. Multi-sensor detection system / handheld
18. Multi-sensor detection system / monitoring equipment
19. Multi-sensor detection system / in, on, upon, or adjacent the product
20. Multi-sensor detection system / satellite connection
21. Multi-sensor detection device / satellite connection
22. Multi-sensor detection system / cellular connection
23. Multi-sensor detection device / cellular connection
24. Multi-sensor detection system / Bluetooth connection
25. Multi-sensor detection device / Bluetooth connection
26. Multi-sensor detection system / radio frequency (RF) connection
27. Multi-sensor detection device / radio frequency (RF) connection
28. Multi-sensor detection system / internet connection
29. Multi-sensor detection device / internet connection
30. Multi-sensor detection system / wireless connection
31. Multi-sensor detection device / wireless connection
32. Multi-sensor detection system / wired connection
33. Multi-sensor detection device / wired connection
34. Multi-sensor detection system / near field communication (NFC)
35. Multi-sensor detection device / near field communication (NFC)

36. Multi-sensor detection system / lock disabling system-device
37. Multi-sensor detection device / lock disabling system-device
38. Multi-sensor detection system / automatic lock disabler
39. Multi-sensor detection device / automatic lock disabler
40. Multi-sensor detection system / mechanical lock disabler
41. Multi-sensor detection device / mechanical lock disabler
42. Multi-sensor detection system / GPS connection
43. Multi-sensor detection device / GPS connection
44. Multi-sensor detection system / interconnected to personal computer (PC)
45. Multi-sensor detection system / interconnected to laptop
46. Multi-sensor detection system / interconnected to notebook
47. Multi-sensor detection device / interconnected to network
48. Multi-sensor detection device / interconnected to central processing unit (CPU)
49. Multi-sensor detection device / interconnected to a physical interface
50. Multi-sensor detection device / interconnected to a gateway component
51. Multi-sensor detection system / maritime seaport crane
52. Multi-sensor detection system / maritime harbor crane
53. Multi-sensor detection system / straddle-carrier
54. Multi-sensor detection system / lighting – visual confirmation
55. Multi-sensor detection system / biometrics – authentication and identification

56. Multi-sensor detection system / embedded; built into the product
57. Multi-sensor detection device / embedded; built into the product
58. Multi-sensor detection system / autonomous sensing
59. Multi-sensor detection device / autonomous sensing
60. Multi-sensor detection system / ubiquitous sensing and detecting
61. Multi-sensor detection device / ubiquitous sensing and detecting
62. Multi-sensor detection system / stand-alone scanner
63. Multi-sensor detection device / stand-alone scanner
64. Multi-sensor detection system / interchangeable sensors
65. Multi-sensor detection device / interchangeable sensors
66. Multi-sensor detection system / integrable sensing
67. Multi-sensor detection device / integrable sensing
68. Multi-sensor detection system / watchtower for monitoring
69. Multi-sensor detection system / cellular towers – sending; receiving signals
70. Multi-sensor detection system / satellites – location and navigational data
71. Multi-sensor detection system / communication satellite two-way signal
72. Multi-sensor detection system / integrated watchtower sensing
73. Multi-sensor detection system / tampering detection
74. Multi-sensor detection device / tampering detection
75. Multi-sensor detection system / remote locking

76. Multi-sensor detection device / remote locking
77. Multi-sensor detection system / electronic locking
78. Multi-sensor detection device / electronic locking
79. Multi-sensor detection system / motive, electronic, or remote vehicle
80. Multi-sensor detection device / motive, electronic, or remote vehicle
81. Multi-sensor detection system / interconnected to a communication device
82. Multi-sensor detection device / interconnected to a communication device
83. Multi-sensor detection device / power source – solar
84. Multi-sensor detection device / power source – electric
85. Multi-sensor detection device / power source – battery
86. Communication device / CBRNE-H detection
87. Communication device / smartphone; cell phone; PDA; PC; laptop; handheld
88. Communication device / interconnected to unmanned aerial vehicle (UAV)
89. Communication device / interconnected to unmanned ground vehicle (UGV)
90. Communication device / interconnected to unmanned sea vehicle (USV)
91. Communication device / interconnected to maritime cargo container
92. Communication device / interconnected to monitoring equipment
93. Communication device / monitoring equipment
94. Communication device / mobile; portable; or fixed
95. Communication device / in, on, upon, or adjacent the product

96. Communication device / satellite connection
97. Communication device / cellular connection
98. Communication device / Bluetooth connection
99. Communication device / radio frequency (RF) connection
100. Communication device / internet connection
101. Communication device / near field communication (NFC) connection
102. Communication device / wireless connection
103. Communication device / wired connection
104. Communication device / lock disabling
105. Communication device / automatic locking, unlocking, or disabling
106. Communication device / mechanical locking, unlocking, or disabling
107. Communication device / remote locking, unlocking, or disabling
108. Communication device / electronic locking, unlocking, or disabling
109. Communication device / interconnected to network
110. Communication device / interconnected to central processing unit (CPU)
111. Communication device / interconnected to gateway component
112. Communication device / interconnected to maritime seaport crane
113. Communication device / interconnected to maritime harbor crane
114. Communication device / interconnected to maritime straddle-carrier
115. Communication device / lighting – visual confirmation

116. Communication device / biometrics – e.g. fingerprint and face
117. Communication device / embedded; built into the product
118. Communication device / sensor array
119. Communication device / ubiquitous sensing and detecting
120. Communication device / stand-alone scanner
121. Communication device / interchangeable sensors
122. Communication device / integrable sensing
123. Communication device / interconnected to watchtower for monitoring
124. Communication device / watchtower integrated sensing and monitoring
125. Communication device / tampering detection
126. Communication device / motive, electronic, or remote vehicle
127. Communication device / interconnected to monitoring site
128. Communication device / stall, stop, or vehicle slowdown
129. Communication device / interconnected to a multi-sensor detected system
130. Communication device / chem-bio sensing; heart rate
131. Communication device / chem-bio sensing; temperature
132. Communication device / chem-bio sensing; pulse
133. Communication device / chem-bio sensing; medical
134. Communication device / power source: solar; electric; and/or battery
135. Communication device / biometrics for locking, unlocking, or disabling

136. Communication device / GPS connection
137. Locking device / CBRNE-H detection
138. Locking device / smartphone; cell phone; PDA; PC; laptop; handheld
139. Locking device / interconnected to unmanned aerial vehicle (UAV)
140. Locking device / interconnected to unmanned ground vehicle (UGV)
141. Locking device / interconnected to unmanned sea vehicle (USV)
142. Locking device / interconnected to maritime cargo container
143. Locking device / interconnected to monitoring equipment
144. Locking device / monitoring equipment
145. Locking device / mobile; portable; or fixed
146. Locking device / in, on, upon, or adjacent the product
147. Locking device / satellite connection
148. Locking device / cellular connection
149. Locking device / Bluetooth connection
150. Locking device / radio frequency (RF) connection
151. Locking device / internet connection
152. Locking device / near field communication (NFC) connection
153. Locking device / wireless connection
154. Locking device / wired connection
155. Locking device / lock disabling

156. Locking device / automatic locking, unlocking, or disabling
157. Locking device / mechanical locking, unlocking, or disabling
158. Locking device / remote locking, unlocking, or disabling
159. Locking device / electronic locking, unlocking, or disabling
160. Locking device / interconnected to network
161. Locking device / interconnected to central processing unit (CPU)
162. Locking device / interconnected to gateway component
163. Locking device / interconnected to maritime seaport crane
164. Locking device / interconnected to maritime harbor crane
165. Locking device / interconnected to maritime straddle-carrier
166. Locking device / lighting – visual confirmation
167. Locking device / biometrics – authentication and identification
168. Locking device / embedded; built into the product
169. Locking device / sensor array
170. Locking device / ubiquitous sensing and detecting
171. Locking device / stand-alone scanner
172. Locking device / interchangeable sensors
173. Locking device / integrable sensing
174. Locking device / interconnected to watchtower for monitoring
175. Locking device / watchtower integrated sensing and monitoring

176. Locking device / tampering detection
177. Locking device / motive, electronic, or remote vehicle
178. Locking device / interconnected to monitoring site
179. Locking device / stall, stop, or vehicle slowdown
180. Locking device / interconnected to a multi-sensor detected system
181. Locking device / chem-bio sensing; heart rate
182. Locking device / chem-bio sensing; temperature
183. Locking device / chem-bio sensing; pulse
184. Locking device / chem-bio sensing; medical
185. Locking device / power source: solar; electric; and/or battery
186. Locking device / biometrics for locking, unlocking, or disabling
187. Locking device / GPS connection
188. Locking device / perimeter sensing
189. Locking device / preprogrammed for locking, unlocking, or disabling
190. Locking device / interconnected to a communication device
191. Locking device / internal or external the product
192. Stall; stop; vehicle slowdown / CBRNE-H detection
193. Stall; stop; vehicle slowdown / smartphone; cell phone; PDA
194. Stall; stop; vehicle slowdown / PC; laptop; handheld
195. Stall; stop; vehicle slowdown / unmanned aerial vehicle (UAV)

196. Stall; stop; vehicle slowdown / unmanned ground vehicle (UGV)
197. Stall; stop; vehicle slowdown / unmanned sea vehicle (USV)
198. Stall; stop; vehicle slowdown / driverless vehicles
199. Stall; stop; vehicle slowdown / interconnected to monitoring equipment
200. Stall; stop; vehicle slowdown / mobile; portable; or fixed
201. Stall; stop; vehicle slowdown / in, on, upon, or adjacent the product
202. Stall; stop; vehicle slowdown / satellite connection
203. Stall; stop; vehicle slowdown / cellular connection
204. Stall; stop; vehicle slowdown / remotely
205. Stall; stop; vehicle slowdown / preprogramed automation
206. Stall; stop; vehicle slowdown / Bluetooth connection
207. Stall; stop; vehicle slowdown / radio frequency (RF) connection
208. Stall; stop; vehicle slowdown / electromagnet pulse
209. Stall; stop; vehicle slowdown / electrostatic discharge
210. Stall; stop; vehicle slowdown / microwave beam
211. Stall; stop; vehicle slowdown / computer system
212. Stall; stop; vehicle slowdown / electrical system
213. Stall; stop; vehicle slowdown / fuel system
214. Stall; stop; vehicle slowdown / air system
215. Stall; stop; vehicle slowdown / interconnected to brakes; foot peddle; lights

216. Stall; stop; vehicle slowdown / interconnected to speed controls
217. Stall; stop; vehicle slowdown / interconnected to transmission
218. Stall; stop; vehicle slowdown / interconnected to horsepower of motor
219. Stall; stop; vehicle slowdown / internet connection
220. Stall; stop; vehicle slowdown / wireless connection
221. Stall; stop; vehicle slowdown / wired connection
222. Stall; stop; vehicle slowdown / interconnected to lock disabling
223. Stall; stop; vehicle slowdown / automatic locking, unlocking, or disabling
224. Stall; stop; vehicle slowdown / mechanical locking, unlocking, or disabling
225. Stall; stop; vehicle slowdown / remote locking, unlocking, or disabling
226. Stall; stop; vehicle slowdown / electronic locking, unlocking, or disabling
227. Stall; stop; vehicle slowdown / interconnected to network
228. Stall; stop; vehicle slowdown / central processing unit (CPU)
229. Stall; stop; vehicle slowdown / interconnected to gateway component
230. Stall; stop; vehicle slowdown / lighting – visual confirmation
231. Stall; stop; vehicle slowdown / biometrics – authentication and identification
232. Stall; stop; vehicle slowdown / embedded; built into the product
233. Stall; stop; vehicle slowdown / sensor array
234. Stall; stop; vehicle slowdown / interchangeable sensors
235. Stall; stop; vehicle slowdown / integrable sensing

236. Stall; stop; vehicle slowdown / interconnected to watchtower for monitoring
237. Stall; stop; vehicle slowdown / watchtower integrated sensor monitoring
238. Stall; stop; vehicle slowdown / tampering detection
239. Stall; stop; vehicle slowdown / motive, electronic, or remote vehicle
240. Stall; stop; vehicle slowdown / interconnected to monitoring site
241. Stall; stop; vehicle slowdown / interconnected to multi-sensor detected system
242. Stall; stop; vehicle slowdown / power source: solar; electric; and/or battery
243. Stall; stop; vehicle slowdown / biometrics for locking, unlocking, or disabling
244. Stall; stop; vehicle slowdown / GPS and navigational connection
245. Stall; stop; vehicle slowdown / interconnected to a communication device
246. Stall; stop; vehicle slowdown / sensors for monitoring movement
247. Stall; stop; vehicle slowdown / sensors for monitoring objects
248. Stall; stop; vehicle slowdown / interconnected to radar
249. Stall; stop; vehicle slowdown / interconnected to camera
250. Stall; stop; vehicle slowdown / interconnected to ignition
251. Product Grouping / “together by common characteristics”
252. Product Grouping / “for detecting”
253. Product Grouping / “for selectively disabling and activating”
254. Product Grouping / “together by common features”
255. Product Grouping / “design similarity”

256. Product Grouping / “similarity in the presentation of security problems”
257. Product Grouping / “similarity with regard to the presentation of solutions”
258. Product Grouping / “products included in the several product groupings”
259. Product Grouping / “arranged by product grouping categories”
260. Product Grouping / “implemented by business or government”
261. Product Grouping / “at a minimum cost by organizing the products”
262. Product Grouping / “anti-terrorist product grouping strategy”
263. Product Grouping / “products made from the same or similar material”
264. Product Grouping / “products having the same or similar design”
265. Product Grouping / “for preventing terrorist activity”
266. Product Grouping / “products... same or similar security problems”
267. Product Grouping / “together by features, designs and materials”
268. Product Grouping / “for monitoring”
269. Product Grouping / “1; storage & transportation”
270. Product Grouping / “2; sensors”
271. Product Grouping / “3; detector case, modified and adapted”
272. Product Grouping / “4; monitoring & communication devices”
273. Product Grouping / “5; communication methods”
274. Product Grouping / “6; biometrics and authentication”
275. Product Grouping / “7; authorized person”
